

DUST COLLECTORS

XF-750

Features

- 1 HP / .75kW
- Single Phase
- 110V/60Hz
- Dual Port
- Manual Cleaning
- 3 Micron Hepa
- Carbon Steel Impeller
- 73 dB
- 13 Gallon Drum
- Vortex Silencer
- 706 CFM

XK-2000

Features

- 2HP / 1.5kW
- Single Phase
- 220V/60Hz
- 3 Port
- Electric Cleaning
- 3 Micron Hepa
- Carbon Steel Impeller
- 73 dB
- 26 Gallon Drum
- Vortex Silencer
- 1250 CFM
- Remote Control
- Bucket Full Alarm

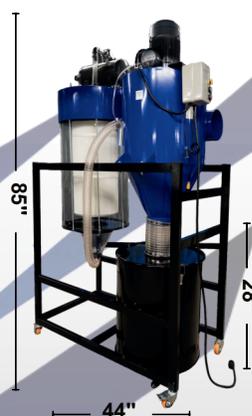

XKM-3000

Features

- 3HP / 2.2kW
- Single Phase
- 220V/60Hz
- 3 Port
- Electric Cleaning
- 3 Micron Hepa
- Carbon Steel Impeller
- 73 dB
- 55 Gallon Drum
- Vortex Silencer
- 1360 CFM
- Remote Control
- Bucket Full Alarm

DGM-3200

Features

- 4HP / 3kW
- Single Phase
- 220V/60Hz
- 3 Port
- Electric Cleaning
- 3 Micron Hepa
- Carbon Steel Impeller
- 78 dB
- 55 Gallon Drum
- Vortex Silencer
- 1880 CFM
- Remote Control
- Bucket Full Alarm

DGM-3200A

Features

- 4HP / 3kW
- Three Phase
- 220V/60Hz
- 3 Port
- Electric Cleaning
- 3 Micron Hepa
- Carbon Steel Impeller
- 78 dB
- 55 Gallon Drum
- Vortex Silencer
- 1880 CFM
- Remote Control
- Bucket Full Alarm
- **Continuous Operation Technology**

Innovative technology that allows the dust collector to keep running while you change out the collection barrel. This feature ensures no downtime and maximizes productivity in your workshop.
